PROFESSIONAL SUMMARY

MCA 2026 graduate with Python as primary programming language and working knowledge of web development and AI tools. Familiar with Python, Java, C, and basic full-stack development. Completed academic and personal projects involving audio processing, speech recognition, and AI-based analysis. Google Cybersecurity and Data Analytics certified. Eager to contribute to a team and continue learning in a professional environment.

TECHNICAL SKILLS

Programming languages:	Python (primary), Java, C, PHP
Web & Databases:	HTML, CSS, JavaScript, MySQL, Firebase
Tools & Concepts:	GitHub, VS Code, OOP, SDLC, Data Structures, Debugging
AI & Machine Learning:	Supervised & Unsupervised Learning, Classification, Clustering, Model Evaluation, Data Preprocessing
AI/ML Libraries:	NumPy, Pandas, Scikit-Learn, Matplotlib

EDUCATION

Master of Computer Applications (MCA) – Computer Science
JSS SM MCA Institute, Dharwad | Dec 2024 – Sep 2026 | CGPA: 8.4

Bachelor of Computer Applications (BCA) – Computer Science
JSS SMI UG and PG Studies, Dharwad | Oct 2021 – Aug 2024 | Percentage: 85%

INTERNSHIP EXPERIENCE

Software Developer Intern – Pravinya Information Technology Services, Hubli | Apr 2024 – Jun 2024

- Participated across all SDLC phases including requirements gathering, design, coding, testing, and deployment.
- Developed dynamic web modules using PHP, JavaScript, and MySQL.
- Performed debugging, bug fixing, and SQL query optimization to improve performance.

Financial Management System – May, Jun 2024

- Designed and developed a web-based billing and financial tracking system using PHP, JavaScript, and MySQL.
- Optimized database queries and performed debugging to ensure data accuracy.

PROJECTS

AudioNotes AI – April 2026

- Developed a system that converts classroom audio recordings into structured academic notes using Python.
- Implemented audio processing, speech recognition (multilingual support), and basic NLP-based text organization.
- Completed the full development cycle including design, coding, testing, and documentation.

SachetSafeIndiaAI – April 2026

- Built an AI-powered tool to analyze ingredients in consumer products using Python and Google Gemini AI.
- Added features for image text extraction (multilingual OCR) and basic safety checking against regulatory standards.
- Implemented user authentication and data storage using Firebase.

CERTIFICATIONS

- Google Cybersecurity Certificate – Coursera (Sep 2024)
- Data Analytics and Visualization – Forage (Aug 2024)
